Re: Application for Variation Premises Licence  
 Spireite Pub, 388 Sheffield Rd. S41 8LF

I am very concerned about the possibility of increased people at the bottom of Sanforth St. where the junction is with Sheffield Rd.

This junction is always difficult for vehicles on match days and there is the probability that people using the outside bar will use the road and footpath as a drinking area.

As some matches are in the evening, there is also the noise factor for people living in neighbouring properties.

Therefore I object to this application on the grounds of Highways issues + noise.
