Derbyshire County Council Primary Education Provision in Wirksworth

About this consultation

Derbyshire County Council is now seeking views on the most appropriate location for primary school education in Wirksworth to support existing and new pupils. Below is a brief summary of the issues.

Background

The strategic housing growth in Wirksworth as identified in the Derbyshire Dales Local Plan shows that an additional 771 dwellings will be built in Wirksworth within the period of the Local Plan up to 2033. In addition, Wirksworth has also been subject to a number of recently approved planning applications for sizeable new housing developments.

The additional number of school aged children generated by the above allocated development will be 154 primary aged school children and 116 secondary school aged children. The existing infant and junior schools serve the current population, but these sites are constrained and do not have the ability to expand to serve any future demographic or planned growth within their normal areas.

Options

- Should the existing infant and junior schools be replaced with a new school to serve the whole of Wirksworth OR should the existing infant and junior schools be retained and a new additional primary school be provided to serve the population increase in Wirksworth?
- Where would be the best location for a new school whether it is as a replacement school for existing pupils and pupils generated by new development, or new stand alone school to address population increase through the growth of Wirksworth?

Further information is available within the full consultation document which aims to provide objective supporting evidence to assist consultees with their consideration. The full consultation document will be available for inspection at the following locations:
