Q4 - Should a full EIA be completed for this policy, project, service, function or strategy?

Yes
 No

Q5 - Reasons for this decision:

Whilst the skills action plan could potentially impact all groups listed, the impact is of a positive nature. The skills agenda has been subject of much change recently and there is a plethora of skills programmes available through different providers. The skills landscape is complicated and it can often be difficult for business and individuals to navigate the system to understand what is available and how to access it.

The skill action plan seeks to ensure that individuals and businesses in Chesterfield have the right skills to access current and future growth and employment opportunities. The plan seeks to give local people and businesses clear advice and support about the range of programmes available. The plan will help maximise the number of training employment and supply chain opportunities for local people arising from new development and secured through local labour agreements.

Please e-mail this form to the Policy Service before moving this work forward so that we can confirm that either a full EIA is not needed or offer you further advice and support should a full EIA be necessary.
