***RESOLVED –**

That the officer recommendation be upheld and the application be approved subject to the following conditions:-

1. The development hereby permitted shall be begun before the expiration of three years from the date of this permission.

2. The development hereby approved shall only be carried out in full accordance with the approved plans (listed below) with the exception of any approved non-material amendment. All external dimensions and elevational treatments shall be as shown on the approved plan/s (listed below).
- Site layout / Block plan / BDNG – Drawing no. 002 Revision C – 1:500
 - Proposed units 3 – 8 (Block B) Elevations and GA – Drawing no.004 – Scale 1:200
 - Proposed 9 – 12 (Block C) Elevations and GA – Drawing no.005 – Scale 1:100
 - Proposed 1 – 2 (Block A) Elevations and GA – Drawing no.003 – Scale 1:100
 - Phasing Plan – Drawing no. 008 – 1:500
 - Document: Flood Risk Assessment – Report no. 45173-001 – dated 01/10/2021 – Prepared by Eastwood and Partners for Walker Wood Ltd
 - Document: Drainage Assessment – Report no. 45233-003 – dated 30/06/2022 – Prepared by Eastwood and Partners for Walker Wood Ltd
 - Document: Biodiversity Net Gain Initial Assessment for W H Butler & Sons Founders Ltd – prepared by Ecus Ltd – dated June 2021
 - Document: Nocturnal Bat Survey Report, Station Road, Chesterfield for W H Butler & Sons (Founders) Ltd – prepared by Ecus Ltd – dated September 2021

3. No development shall commence in accordance with the submitted phasing plan (Phasing Plan – Drawing no. 008 – 1:500), (excluding the demolition of existing structures) until;
- a) a scheme of intrusive investigations has been carried out on site to establish the risks posed to the development by past shallow coal mining activity; and
 - b) any remediation works and/or mitigation measures to address land instability arising from coal mining legacy, as may be necessary, have been implemented on site in full in order to ensure that the site is made safe and stable for the development proposed.

The intrusive site investigations and remedial works shall be carried out in accordance with authoritative UK guidance.

4. In accordance with the phasing plan submitted, (Phasing Plan – Drawing no. 008 – 1:500), prior to the occupation of the development, or it being taken into beneficial use, a signed statement or declaration prepared by a suitably competent person confirming that the site is, or has been made, safe and stable for the approved development shall be submitted to the Local Planning Authority for approval in writing. This document shall confirm the methods and findings of the intrusive site investigations and the completion of any remedial works and/or mitigation necessary to address the risks posed by past coal mining activity.
5. With the exception of demolition of existing structures where appropriate and in accordance with the submitted phasing plan (Phasing Plan – Drawing no. 008 – 1:500), no works shall commence until:
- a) detailed proposals in line with current best practice for the removal, containment or otherwise rendering harmless such contamination (the 'Contamination Proposals') shall be submitted to and approved in writing by the Local Planning

Authority;

- b) For each part of the development, 'Contamination Proposals' relevant to that part shall be carried out either before or during such development as appropriate;
- c) If during development works any contamination should be encountered which was not previously identified and is derived from a different source and/or of a different type to those included in the 'Contamination Proposals' then the revised 'Contamination Proposals' shall be submitted to and approved in writing by the Local Planning Authority;
- d) If during development work site contaminants are found in areas previously expected to be clean then their remediation shall be carried out in line with the agreed 'Contamination Proposals';
- e) Prior to the commencement of any construction works in any area that has been subject to remediation, a verification report shall be submitted to and approved in writing by the Local Planning Authority.

All reports a) to e) shall be submitted to the Local Planning Authority and approved in writing by the Local Planning Authority prior to the development commencing.

- 6. The demolition of Building 4 shall not take place until either a European Protected Species Licence has been obtained from Natural England or the site has been registered under a bat mitigation class licence (low impact). Upon receipt of a licence from Natural England / site registration, works shall proceed strictly in accordance with the approved mitigation, which should be based on the proposed measures outlined in the Nocturnal Bat Survey Report (Ecus Ltd. 2021) and amended as necessary based on any comments from Natural England. Such approved mitigation will be implemented in full in accordance with a timetable of works included within the licence and followed thereafter. A copy of the licence / confirmation of registration will be submitted to the LPA once granted.
- 7. No development shall take place until a detailed design and associated management and maintenance plan of the surface water

drainage for the site, in accordance with the principles outlined within:

- a) Flood Risk Assessment Ref No: 45173-001, Issue No: 3, Dated: 01 October 2021, completed by Eastwood & Partners Consulting Engineers. Drainage Assessment Ref No: 45173, Issue No:1, Dated: 30 June 2022, completed by Eastwood & Partners Consulting Engineers “including any subsequent amendments or updates to those documents as approved by the Flood Risk Management Team
 - b) And DEFRA’s Non-statutory technical standards for sustainable drainage systems (March 2015), have been submitted to and approved in writing by the Local Planning Authority.
8. Prior to commencement of the development, the applicant shall submit for approval to the LPA details indicating how additional surface water run-off from the site will be avoided during the construction phase. The applicant may be required to provide collection, balancing and/or settlement systems for these flows. The approved system shall be operating to the satisfaction of the LPA, before the commencement of any works, which would lead to increased surface water run-off from site during the construction phase.
 9. Prior to the first occupation of the development in accordance with the submitted phasing plan (Phasing Plan – Drawing no. 008 – 1:500), a verification report carried out by a qualified drainage engineer must be submitted to and approved by the Local Planning Authority. This must demonstrate that the drainage system has been constructed as per the agreed scheme (or detail any minor variations), provide the details of any management company and state the national grid reference of any key drainage elements (surface water attenuation devices/areas, flow restriction devices and outfalls).
 10. The site shall be developed with separate systems of drainage for foul and surface water on and off site. The separate systems should extend to the points of discharge to be agreed.
 11. Prior to any discharge to an existing or prospectively adoptable sewer, surface water run-off from hardstanding (equal to or greater than 800 square metres) and/or communal car parking area (s) of

more than 50 spaces must pass through an oil, petrol and grit interceptor/separator of adequate design that has been submitted to and approved by the Local Planning Authority. Only the agreed details shall be implemented and retained at the application site.

12. The development shall be carried out in strict accordance with the details indicated within the submitted report, "Drainage Assessment prepared by Eastwood & Partners, dated 30 June 2022".
13. The development shall be carried out in accordance with the submitted Flood Risk Assessment (ref. 45173-001, dated 01 October 2021, by Eastwood & Partners) and the following mitigation measures it details:
 - Finished floor levels shall be set no lower than existing ground floor levels
 - The development shall include flood resilient and resistant construction as detailed in the flood risk assessment
 - These mitigation measures shall be fully implemented prior to occupation and subsequently in accordance with the scheme's timing/phasing arrangements. The measures detailed above shall be retained and maintained thereafter throughout the lifetime of the development.
14. There shall be no increase to average or peak flows of surface water run off leading towards Network Rail assets, including earthworks, bridges and culverts.
15. The individual units hereby permitted shall only be used for the purposes of General Industry or Storage and Distribution (as defined by use classes B2 and B8 of the Town and Country Planning (Use Classes) Order 1987 (as amended) or for Light Industrial Processes or Research and Development of products.
16. Construction work and demolition work shall only be carried out between the hours of 8:00 am to 6:00 pm Monday to Friday and 9:00 am to 5:00 pm on a Saturday. Construction work shall not be carried out on Sundays or Public Holidays. The term 'construction work' shall include mobile and fixed plant/machinery, (e.g. generators) radios and the delivery of construction materials.

17. At all times during the demolition and construction phase, measures to minimise airborne dust arising from the site shall be in place throughout the construction period including demolition.
18. Prior to building works commencing above foundation level, a bat and bird box plan shall be submitted to and approved in writing by the LPA to maximise site biodiversity. This shall include the bat boxes as recommended in Section 4.3.7 of the Nocturnal Bat Survey Report (Ecus Ltd., 2021), along with a range of suitable bird boxes for the site.
19. Prior to completion or first occupation of the development hereby approved, whichever is the sooner; details of treatment of all parts on the site not covered by buildings shall be submitted to and approved in writing by the Local Planning Authority. The site shall be landscaped strictly in accordance with and reflect the soft landscaping Option 3 in the submitted Biodiversity Net Gain Initial Assessment by ECUS dated June 2021 in the first planting season after completion or first occupation of the development, whichever is the sooner. Details shall include:
 - a) a scaled plan showing vegetation to be retained and trees and plants to be planted:
 - b) proposed hardstanding and boundary treatment:
 - c) a schedule detailing sizes and numbers of all proposed trees/plants
 - d) Sufficient specification to ensure successful establishment and survival of new planting.
20. Any new tree(s) that die(s), are/is removed, become(s) severely damaged or diseased shall be replaced and any new planting (other than trees) which dies, is removed, becomes severely damaged or diseased within five years of planting shall be replaced. Replacement planting shall be in accordance with the approved details (unless the Local Planning Authority gives its written consent to any variation).
21. All lighting shall be designed so as not to cause glare / overspill of the site.

22. Where new external lighting is to be installed (in addition to the lighting detailed in the approved plans), details of the external lighting shall be provided to the Local Planning Authority for approval. Only the approved lighting shall be installed at the application site.
23. An Armco or similar barrier shall be located in positions where vehicles may be in a position to drive into or roll onto the railway or damage the lineside fencing. At no time during demolition or construction shall Network Rail's existing fencing / wall must be removed or damaged. As a minimum, provision should be made at each turning area/roadway/car parking area adjacent to the railway.
24. The proposed 2.4 metre high palisade fencing as shown in the approved site layout plan shall be retained unless an alternative / replacement is otherwise agreed in writing with the Local Planning Authority.
25. Prior to any works commencing within 10 metres of the railway boundary, a method statement shall be submitted to Network Rail for approval. The method statement shall include details regarding the proposed method of construction, risk assessment in relation to the railway and a construction traffic management plan. Works shall then be carried out in strict accordance with the details agreed in the method statement.
26. A minimum of 6no weeks prior to works commencing on site, the applicant is required to make direct contact with the Asset Protection Project Manager (OPE) at Network Rail. The OPE will require to see details in respect of method statements, drawings relating to excavation, drainage, demolition, lighting and building work, or any other works that may affect the safety, operation, integrity and access to the railway.
27. Prior to the occupation of the units hereby approved, and in accordance with the submitted phasing plan (Phasing Plan – Drawing no. 008 – 1:500), a minimum of 5no. Electric Vehicle Charging points shall be provided at the application site and shall be made available and maintained operational for the lifetime of the approved development.

28. All surface water run-off and sewage effluent shall be handled in accordance with Local Council and Water Company regulations.

3.
 - a) Prior to work commencing on site, the application site shall be subjected to a detailed scheme for the investigation and recording of contamination and a report has been submitted to and approved in writing by the Local Planning Authority;
 - b) Prior to works commencing on site, detailed proposals in line with current best practice for the removal, containment or otherwise rendering harmless such contamination (the 'Contamination Proposals') shall be submitted to and approved

in writing by the Local Planning Authority;

- c) For each part of the development, 'Contamination Proposals' relevant to that part shall be carried out either before or during such development as appropriate;
- d) If during development works any contamination should be encountered which was not previously identified and is derived from a different source and/or of a different type to those included in the 'Contamination Proposals' then the revised 'Contamination Proposals' shall be submitted to and approved in writing by the Local Planning Authority;
- e) If during development work site contaminants are found in areas previously expected to be clean then their remediation shall be carried out in line with the agreed 'Contamination Proposals';
- f) Prior to the commencement of any construction works in any area that has been subject to remediation, a verification report shall be submitted to and approved in writing by the Local Planning Authority.

4. No development shall commence until:

- a) A scheme of intrusive investigations has been carried out on site to establish the risk posed to the development by past coal mining activity; and
- b) Any remediation works and/or mitigation measures to address land instability arising from coal mining legacy, as may be necessary, have been implemented on site in full in order to ensure that the site is safe and stable for the development proposed.

The intrusive site investigations and remedial works shall be carried out in accordance with authoritative UK guidance.

5. Prior to the development hereby being permitted being occupied or being brought into beneficial use, a signed statement or declaration prepared by a suitably competent person confirming that the site is, or has been made, safe and stable for the approved development shall be submitted to the Local Planning Authority for approval in

writing. This document shall confirm the methods and findings of the intrusive site investigations and the completion of any remedial works and/or mitigation necessary to address the risks posed by past coal mining activity.

6. No construction or demolition works, movement of construction traffic, or deliveries to and from the premises, shall occur other than between 0800 and 1800 hours weekdays, and 0800 and 1300 hours on Saturdays, and at no time on Sundays or Public Holidays. The term 'construction work' shall include mobile and fixed plant/machinery, (e.g. generators) radios and the delivery of construction materials.
7. There shall be no piped discharge of surface water from the development prior to the completion of surface water drainage works, details of which will have been submitted to and approved by the Local Planning Authority. If discharge to public sewer is proposed, the information shall include, but not be exclusive to:
 - a) Evidence to demonstrate that surface water disposal via watercourse is not reasonably practical;
 - b) Evidence of existing drainage to public sewer and the current points of connection; and
 - c) The means of restricting the discharge to public sewer to the existing rate less a minimum 30% reduction, based on the existing peak discharge rate during a 1 in 1 year storm event, to allow for climate change.
8. The site shall be developed with separate systems of drainage for foul and surface water on and off site. The separate systems should extend to the points of discharge to be agreed.
9. Prior to building works commencing above foundation level, a Biodiversity Enhancement Plan shall be submitted to and approved in writing by the Local Planning Authority to achieve a net gain in biodiversity in accordance with the NPPF 2021. Such approved measures shall be implemented in full and maintained thereafter as part of the development. The plan shall clearly show positions, specifications and numbers of features.

10. Notwithstanding the submitted details no development above floor-slab/D.P.C level shall take place until details for the treatment of all parts on the site not covered by buildings shall be submitted to and approved in writing by the Local Planning Authority. The site shall be landscaped strictly in accordance with the approved details in the first planting season after completion or first occupation of the development, whichever is the sooner. Details shall include:
- a) a scaled plan showing trees and plants to be planted including species and planting density. The plan shall include indications of all existing trees, hedgerows and other vegetation on the land to be retained and detail measures for the protection of retained vegetation during the course of development, including details of ecologically beneficial landscaping to provide a biodiversity enhancement.
 - b) proposed hardstanding surfacing materials and shall include elevational drawings of boundary treatments including materials, types of fencing and treatment/colour.
 - c) a schedule detailing sizes and numbers of all proposed trees/plants
 - d) Sufficient specification to ensure successful establishment and survival of new planting.
11. The landscaping provided shall be retained and maintained as follows:
- a) All soft landscaping comprised in the approved details of landscaping shall be carried out in the first planting and seeding season following the first occupation of the building(s) or the completion of the development whichever is the sooner;
 - b) All shrubs, trees and hedge planting shall be maintained free from weeds and shall be protected from damage by vermin and stock.
 - c) Any trees or plants which, within a period of five years, die, are removed, or become seriously damaged or diseased shall be replaced in the next planting season with others of a similar size and species, unless otherwise agreed in writing by the local

planning authority.

- d) All hard landscaping shall also be carried out in accordance with the approved details prior to the occupation of any part of the development or in accordance with a programme to be agreed in writing with the Local Planning Authority.
12. Full details of the boundary treatment to the northern boundary of the property adjacent to Avenue Road shall be submitted to and approved in writing by the local planning authority. The details which are subsequently agreed in writing shall be carried out as part of the development and shall be completed prior to the development hereby agreed being first occupied / brought into beneficial use and shall be retained as such thereafter.
 13. Prior to the development hereby being permitted being occupied / brought into beneficial use, the existing vehicular / pedestrian access from Sheffield Road into the site shall be permanently closed off and the existing vehicular cross reinstated as footway in accordance with the County Council's latest standard for works in the public highway. Notwithstanding the provisions of the Town and Country Planning (General Permitted Development) (England) Order 2015, or any statutory instrument amending, revoking and/or replacing that Order, the measures to close off the access shall be retained as approved throughout the lifetime of the development.
 14. Prior to installation of any external lighting scheme for the site, a detailed scheme shall be submitted to the Local Planning Authority for consideration. The lighting scheme agreed in writing shall be fully implemented in accordance with the approved scheme before the use commences and retained as such thereafter.
 15. Prior to the development hereby being permitted being occupied / brought into beneficial use, space shall be provided within the application site in accordance with the approved application drawings for the parking and manoeuvring of residents vehicles, laid out, surfaced and thereafter maintained throughout the life of the development free from any impediment to its designated use.
 16. The Electric Vehicle Charging Points (EVCPs) shown as part of the agreed scheme shall be provided for at least 2 no. car/van parking spaces together with passive provision to be made available for the

remainder of the site so that spaces are capable of being readily converted to EVCPs in the future. The EVCPs shall be available for use concurrent with the first occupation of the building and which shall thereafter be retained and maintained operational for the lifetime of the development.

17. Prior to the development being occupied / brought into beneficial use, the details, specification and access control arrangements for the security gates at the exterior of the building and the buildings entrance lobby shall be submitted to the Local Planning Authority for consideration. The detail subsequently agreed in writing shall be carried out as part of the development and shall be retained as such thereafter for the life of the development.
18. Prior to the development hereby being permitted being occupied brought into use the first floor windows to the side (east and west) elevations shall be installed with obscure glazing to at least Pilkington level 4 and with no opening part being less than 1.7 metres above the floor level immediately below the centre of the opening part. Once installed the glazing shall be retained as such thereafter.
19. Prior to installation of the solar PV arrays shown on the agreed drawings full details shall be submitted to the Local Planning Authority for consideration. The details agreed in writing shall be fully implemented in accordance with the approved scheme before the use commences and retained as such thereafter.

7. Prior to the development hereby being permitted being occupied or being brought into beneficial use, a signed statement or declaration prepared by a suitably competent person confirming that the site is, or has been made, safe and stable for the approved development shall be submitted to the Local Planning Authority for approval in

writing. This document shall confirm the methods and findings of the intrusive site investigations and the completion of any remedial works and/or mitigation necessary to address the risks posed by past coal mining activity.

8. No construction or demolition works, movement of construction traffic, or deliveries to and from the premises, shall occur other than between 0800 and 1800 hours weekdays, and 0800 and 1300 hours on Saturdays, and at no time on Sundays or Public Holidays. The term 'construction work' shall include mobile and fixed plant/machinery, (e.g. generators) radios and the delivery of construction materials.
9. There shall be no piped discharge of surface water from the development prior to the completion of surface water drainage works, details of which will have been submitted to and approved by the Local Planning Authority. If discharge to public sewer is proposed, the information shall include, but not be exclusive to:
 - a) Evidence to demonstrate that surface water disposal via watercourse is not reasonably practical;
 - b) Evidence of existing drainage to public sewer and the current points of connection; and
 - c) The means of restricting the discharge to public sewer to the existing rate less a minimum 30% reduction, based on the existing peak discharge rate during a 1 in 1 year storm event, to allow for climate change.
10. The site shall be developed with separate systems of drainage for foul and surface water on and off site. The separate systems should extend to the points of discharge to be agreed.
11. No individual dwelling unit approved as part of the reserved matters shall be occupied until the requirement for water consumption (110 litres use per person per day) in Part G of the Building Regulations has been complied with for that dwelling.
12. Concurrent with the submission of landscaping details as part of a reserved matters application, plans/drawings shall be submitted to the Local Planning Authority for approval in writing demonstrating the

creation of a suitable habitat which enhances the ecological interest of the site with a maintenance plan, to achieve a Biodiversity Net Gain in line with guidance within the NPPF. (This shall include but not be limited to the planting of native shrubs and trees such as rowan, bird cherry, birch, guelder rose, dogwood, hazel, goat willow, alder buckthorn or fruit trees such as apple and pear, the incorporation of integrated bird boxes / terraces, small mammal measures such as hedgehog highways)

13. Within the reserved matters application a detailed landscaping plan shall be submitted to the Local Planning Authority for approval. The site shall be landscaped strictly in accordance with the approved details in the first planting season after completion or first occupation of the development, whichever is the sooner. Details shall include:
 - a) a scaled plan showing trees and plants to be planted including species and planting density. The plan shall include indications of all existing trees, hedgerows and other vegetation on the land to be retained and detail measures for the protection of retained vegetation during the course of development, including details of ecologically beneficial landscaping to provide a biodiversity enhancement.
 - b) proposed hardstanding surfacing materials and shall include elevational drawings of boundary treatments including materials, types of fencing and treatment/colour.
 - c) a schedule detailing sizes and numbers of all proposed trees/plants
 - d) Sufficient specification to ensure successful establishment and survival of new planting.
14. The landscaping provided shall be retained and maintained as follows:
 - a) All soft landscaping comprised in the approved details of landscaping shall be carried out in the first planting and seeding season following the first occupation of the building(s) or the completion of the development whichever is the sooner;

- b) All shrubs, trees and hedge planting shall be maintained free from weeds and shall be protected from damage by vermin and stock.
 - c) Any trees or plants which, within a period of five years, die, are removed, or become seriously damaged or diseased shall be replaced in the next planting season with others of a similar size and species, unless otherwise agreed in writing by the local planning authority.
 - d) All hard landscaping shall also be carried out in accordance with the approved details prior to the occupation of any part of the development or in accordance with a programme to be agreed in writing with the Local Planning Authority.
15. Concurrent with the submission of landscaping details as part of a reserved matters application full details of the boundary treatment to the northern boundary of the property adjacent to Avenue Road shall be submitted to and approved in writing by the local planning authority. The details which are subsequently agreed in writing shall be carried out as part of the development and shall be completed prior to the development hereby agreed being first occupied / brought into beneficial use and shall be retained as such thereafter.
16. Prior to any other operations being commenced the existing vehicular access onto Avenue Road shall be increased to 6 metres wide (in accordance with the approved plans), laid out (no steeper than 1:14), constructed and provided with pedestrian inter-visibility splays of 2m by 2m on each side of the access, the depth measured from the back of the footway and the widths outwards from the edges of the access. No fence, wall or other obstruction to visibility above 0.6m shall be provided within the area of such splays. There shall be no gates or other barriers on the access / driveway.
17. Electric Vehicle Charging Points (EVCPs) shall be provided for at least 2 no. car/van parking spaces together with passive provision to be made available for the remainder of the site so that spaces are capable of being readily converted to EVCPs in the future. The EVCPs shall be available for use concurrent with the first occupation of the building and which shall thereafter be retained and maintained operational for the lifetime of the development.

18. Concurrent with the submission of landscaping details as part of a reserved matters application, a scheme for secure cycle parking (10 racks) on the site shall be submitted to and approved in writing by the Local Planning Authority. The cycle parking to be provided shall be secure, in an overlooked, lit location with protection from weather and shall be provided concurrent with the first occupation of the building and thereafter retained and maintained operational for the lifetime of the development.

B. That a CIL Liability Notice be issued in accordance with the rate in the Council's Charging Schedule, as per section 5.12 of the report.

 - c) a schedule detailing sizes and numbers of all proposed trees/plants
 - d) Sufficient specification to ensure successful establishment and survival of new planting.
5. The landscaping provided shall be retained and maintained as follows:
- a) All soft landscaping comprised in the approved details of landscaping shall be carried out in the first planting and seeding season following the first occupation of the building(s) or the completion of the development whichever is the sooner;
 - b) All shrubs, trees and hedge planting shall be maintained free from weeds and shall be protected from damage by vermin and stock.
 - c) Any trees or plants which, within a period of five years, die, are removed, or become seriously damaged or diseased shall be replaced in the next planting season with others of a similar size and species, unless otherwise agreed in writing by the local planning authority.
 - d) All hard landscaping shall also be carried out in accordance with the approved details prior to the occupation of any part of the development or in accordance with a programme to be agreed in writing with the Local Planning Authority.
6. No construction or demolition works, movement of construction traffic, or deliveries to and from the premises, shall occur other than between 0800 and 1800 hours weekdays, and 0800 and 1300 hours

on Saturdays, and at no time on Sundays or Public Holidays. The term 'construction work' shall include mobile and fixed plant/machinery, (e.g. generators) radios and the delivery of construction materials.

7. The site shall be developed with separate systems of drainage for foul and surface water on and off site. The separate systems should extend to the points of discharge to be agreed.
8. No individual dwelling hereby approved shall be occupied until the optional requirement for water consumption (110 litres use per person per day) in Part G of the Building Regulations has been complied with for that dwelling.
9. Prior to installation of any external lighting scheme for the site, a detailed scheme shall be submitted to the Local Planning Authority for consideration. The lighting scheme agreed in writing shall be fully implemented in accordance with the approved scheme before the use commences and retained as such thereafter.
10. An Electric Vehicle Charging Point (EVCPs) shall be provided for one of the parking spaces with passive provision to be made available for the remainder of the site so that spaces are capable of being readily converted to EVCPs in the future. Thereafter the EVCP shall be retained and maintained operational for the lifetime of the development.
11. Prior to the development hereby permitted being occupied, space shall be provided within the application site in accordance with the approved application drawings for the parking and manoeuvring of residents' vehicles, laid out, surfaced and maintained throughout the life of the development free from any impediment to its designated use. The parking spaces and manoeuvring area shall be retained thereafter available for its designated use.
12. Prior to the development hereby permitted being occupied the first floor windows to the north elevation shall be installed with obscure glazing to a minimum of Pilkington Level 4 and with no opening part being less than 1.7m above the internal floor level. Once installed the obscure glazing shall be retained as such thereafter.

13. Samples / details of all materials, including all new windows and doors, to be used in the construction of the external surfaces of the proposed development shall be submitted to and approved in writing by the Local Planning Authority before any work to any external surface is carried out. The development shall thereafter be constructed in accordance with the approved details.

B. That a CIL Liability Notice is issued in accordance with the rate in the Council's Charging Schedule, as per section 6.6 of the report.
