

Performance Report – December 2015

Recorded crime figures are based on the current Home Office Crime Groupings. From April 2014, crime is classified by the Home Office as either Victim Based or Crimes against society

Victim Based - Violence with injury, violence without injury, sexual offences, business robbery, personal robbery, domestic burglary, non-domestic burglary, theft of vehicle, theft from vehicle, interfere with vehicle, bicycle theft, shoplifting, all other theft offences and criminal damage and arson.

Crimes against society - Drug offences, possession of weapons offences, public order offences and miscellaneous crimes against society.

A copy of the new crime tree from April 2014 can be seen on Page 2.

As of 2013, the majority of Fraud offences are recorded nationally by Action Fraud. Those recorded by the police are mainly 'making off without payment' offences which are now recorded under 'other stealing'. Therefore, 'Fraud and Forgery' offences are excluded from this report.

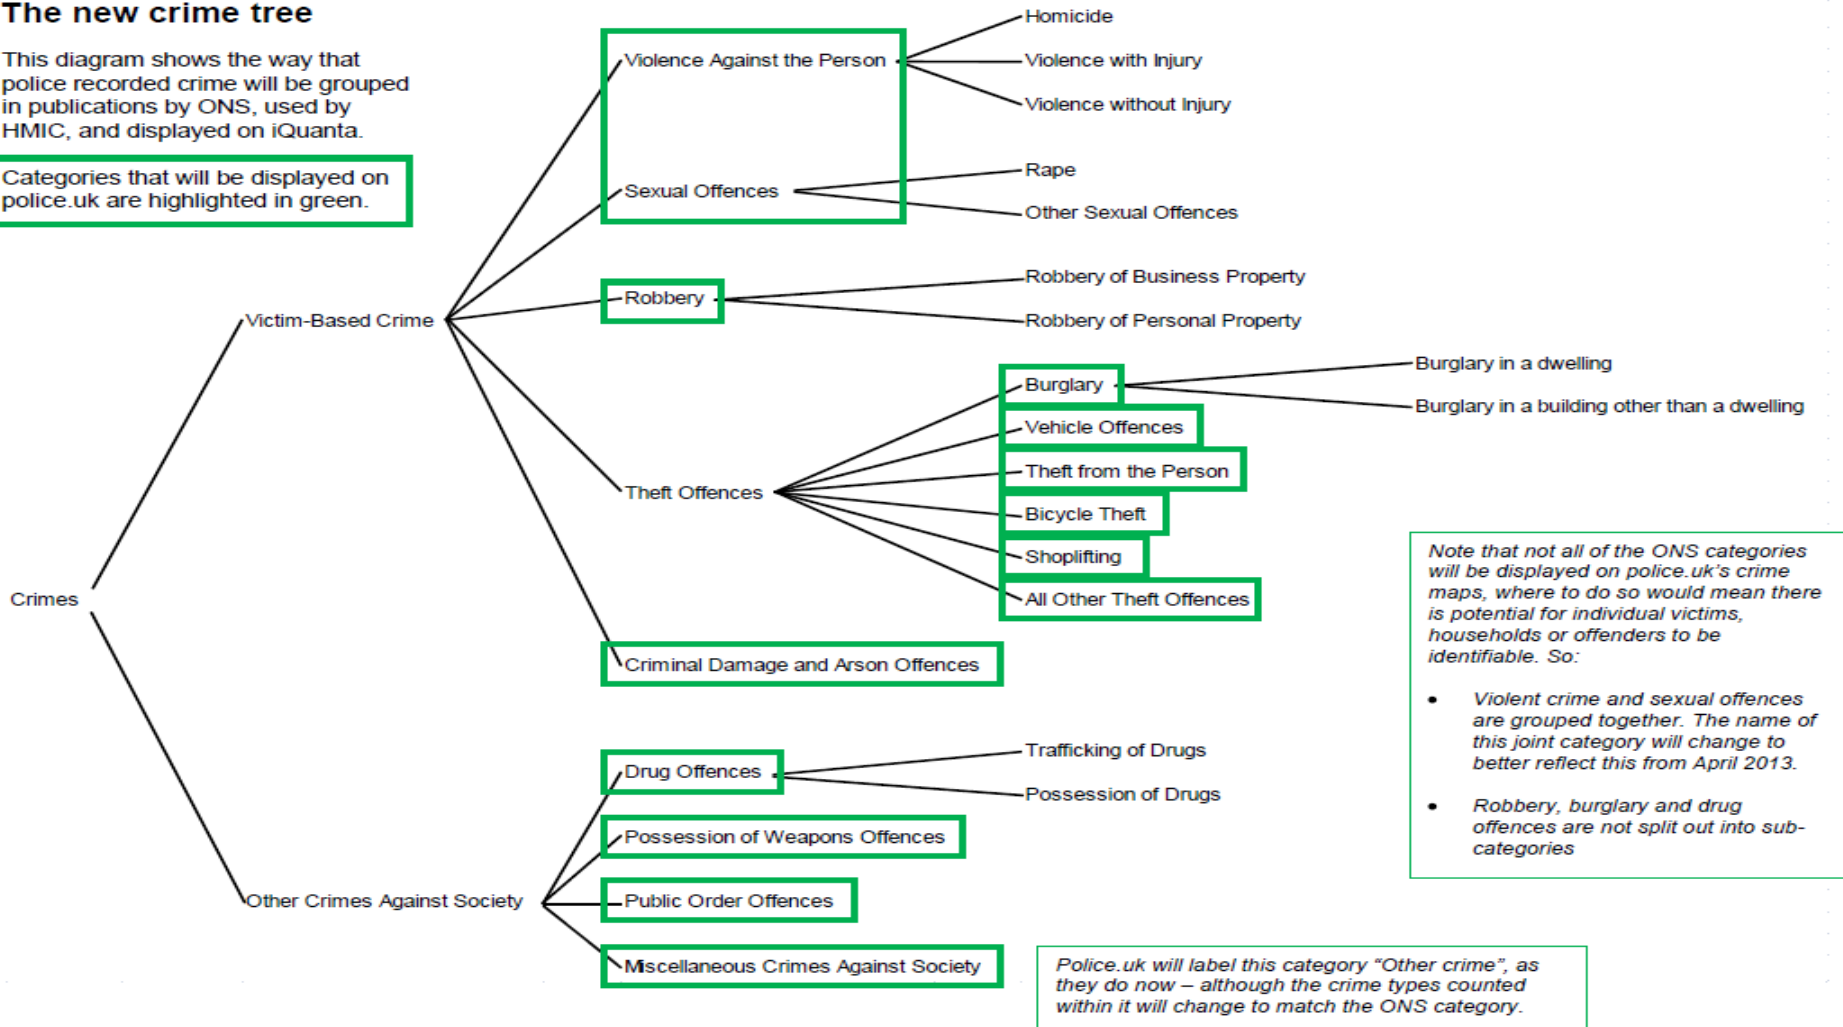

Crime and Incident Data are based on the recorded date of the crime / incident and reflects the data as at the point the data is taken from live Guardian and Command and Control systems. It is therefore subject to change.

Data is provided for the Administrative County and each Council Area for Derbyshire (including Derby City). Comparisons are made for the latest full 12 month periods with the previous 12 months. Year to date / historical levels will be mentioned where appropriate with specific figures provided (Full Year to Date and previous monthly figure data tables are available on request). A green highlight indicates a reduction in crime/ incidents, with a red highlight

The new crime tree

This diagram shows the way that police recorded crime will be grouped in publications by ONS, used by HMIC, and displayed on iQuanta.

Categories that will be displayed on police.uk are highlighted in green.

Note that not all of the ONS categories will be displayed on police.uk's crime maps, where to do so would mean there is potential for individual victims, households or offenders to be identifiable. So:

- Violent crime and sexual offences are grouped together. The name of this joint category will change to better reflect this from April 2013.
- Robbery, burglary and drug offences are not split out into sub-categories

Police.uk will label this category "Other crime", as they do now – although the crime types counted within it will change to match the ONS category.
