STEP 1 – MAKE SURE YOU HAVE CLEAR AIMS AND OBJECTIVES

What is the aim of the policy, project, service, function or strategy?

The Housing Repairs Budget finances the day to day repairs and planned maintenance of the Council housing stock. Works include; repairs to void and tenants' properties across all trades (joinery, plumbing, gas, electrical, brickwork etc.) including out of hours emergencies.

The 2017/18 Repairs Budget has been decreased by £500,000 with further decreases of £500,000 recommended in 2018/19 and 2019/20

Who is the policy, project, service, function or strategy going to benefit and how?

The Repairs Budget is for the benefit of all Council tenants and in certain instances leaseholders of ex council flats.

What outcomes do you want to achieve?

For all tenants to receive a quality and timely responsive repairs service in line with agreed service standards.

What barriers exist for both the Council and the groups/people with protected characteristics to enable these outcomes to be achieved?

Date: February 2014

Some tenants have specific cultural requirements e.g. No male workers where only a female Muslim is present, avoiding carrying out improvements during specific religious festivals (Ramadan). Work (other than emergencies) can be planned to meet the individual requirements of the tenant.

There are also potential barriers for tenants with disabilities such as visual impairments when equipment and materials could prove a hazard whilst work is being carried out. Or for wheelchair users when work is being carried out tenants could have restricted access to their homes caused by equipment and materials. Advice or assistance is given to support individuals in specific circumstances.

STEP 2 – COLLECTING YOUR INFORMATION

What existing data sources do you have to assess the impact of the policy, project, service, function or strategy?

The ongoing Customer Engagement Strategy and opportunities for engagement e.g. Focus Groups, Tenant Challenge Panel and in particular the recent HRA Business Plan Steering Group, Repairs and Maintenance Review Group and Repairs Focus Group.

These help us to develop programmes of work tailored to the individual needs of tenants with protected characteristics. We also have data available from previous revenue and capital improvement works which can give us an indication of future needs.

STEP 3 – FURTHER ENGAGEMENT ACTIVITIES

Please list any additional engagement activities undertaken to complete this EIA e.g. met with the Equalities Advisory Group, local BME groups, Employee representatives etc. Could you also please summarise the main findings.

Date	Engagement Activity	Main findings
Ongoing	Customer Engagement Strategy	Range of individual requirements identified with tenants.
Ongoing	Repairs Focus Group	Range of individual requirements identified with tenants. Development of revised service standards for repairs
Ongoing	HRA Business Plan Steering Group	Recommended a range of changes to service delivery and budgets to ensure the housing service remains financially viable

STEP 4 – WHAT'S THE IMPACT?

Is there an impact (positive or negative) on some groups/people with protected characteristics in the community? (Think about race, disability, age, gender, religion or belief, sexual orientation and other socially excluded

Date: February 2014

communities or groups). You may also need to think about sub groups within each equalities group or protected characteristics e.g. older women, younger men, disabled women etc.

Please describe the potential impacts both positive and negative and any action we are able to take to reduce negative impacts or enhance the positive impacts.

Group or Protected Characteristic	Positive impacts	Negative impacts	Action
Age – including older people and younger people.	Flexible 24 hours service that can be accessed by telephone and internet. Appointments planned and programme to meet specific needs and evening and weekend appointments can be arranged. Text reminders sent	Child related hazards / access around home while workman in. The proposed reduction in budget and review of tenant repairing obligations may impact on older people who are less able to carry out repairs themselves	Actions are already in place to mitigate these negative impacts, our Officers work with the tenants and the work is scheduled in to meet the requirements of the tenant. The review will ensure that provision is still made for tenants to receive repairs where they are old or disabled and have no family to assist with repairs which are a tenant obligation
Disabled people – physical, mental and sensory including learning disabled people and people living with HIV/Aids and cancer.	Flexible 24 hours service that can be accessed by telephone and internet. Appointments planned and programme to meet specific needs and evening and weekend appointments can be arranged. Text reminders sent	Hazards / access around home while workman in. The proposed reduction in budget and review of tenant repairing obligations may impact on disabled people who are less able to carry out repairs themselves	Actions are already in place to mitigate these negative impacts, our Officers work with the tenants and the work is scheduled in to meet the requirements of the tenant The review will ensure that provision is still made for tenants to receive repairs where they are old
