Koo, 475a chatsworth rd, brampton s403ad - variation of premises licence

Dear Mr Ashby, it is currently a bistro and cafe and would in my opinion with the changes proposed become something totally different. It would become a regular late night venue, with very late opening on Friday, Saturday and Sunday, with music. It is situated on Chatsworth Rd, which is a very busy road, and during the day any noise is "absorbed" by the traffic. At night it would be a different matter and would carry to the very near residential properties, including my own at :

This is a residential area and the proposal as it stands would be totally unacceptable, as follows:

- a) live music indoors and outdoors - 1am sunday to thursday and 1.30am friday and saturday, this could be 11pm s to th and 12pm f and s.
- b) sale and supply of alcohol - this should be s to th 10.30pm and 11.30pm f and s; and should be 10.30pm in the outside areas. In addition, I would not like to see and outside activity at the back of the premises, as this faces the main residential area..
- c) late night dance and refreshment - as above.
- d) toattally disagree with the proposition fro new years eve in its entirety.
- e) my main concern relates to outside activity

Regardless, what will happen is that the doors and windows will be open (it's a small place), with people sitting outside until all hours, with their voices carrying, and local residents will be left with the nuisance. When they leave it will also impact on the immediate vicinity ie noise, car doors slamming, taxis etc. I have witnessed it at "maison mes amis", further down the road.

This is a quiet residential area and let's keep it that way.

Thanks.
