SO tomorrow night it's the Legendary Ark Tavern Jam Night and it's the last one for nearly a month due to the pub having a refurbishment. So after tomorrow night the next ark tavern jam will be on JULY 24th please come along and let's have a blast let's see the old pub out in true jam night style. We also have Richard Jackson standing in on drums for the house band as our good friend John Talbot is away on holiday please share the hell out of this and let's have a great night cheers Mark
