

## **Consultation on Public Spaces Protection Order (PSPO)**

### **Review of PSPO/dog control (2018)**

#### **Background document**

**May 2021**

---

#### **Legal background**

The Public Spaces Protection Order (PSPO) is a legal power granted under the Anti-Social Behaviour, Crime & Policing Act 2014. PSPOs are intended to deal with a particular nuisance or problem in a geographical area that is of concern. They are designed to ensure the law-abiding majority can use and enjoy public spaces, safe from anti-social behaviour.

All local authorities can designate a PSPO on any public space within its own area. The definition of a public space is wide and includes any place to which the public has access to.

We believe the restrictions that are currently in place are of benefit to local communities, neighbourhoods, and the local economy, as they help in the creation and maintenance of clean, safe, and healthy neighbourhoods, town centres and visitor destinations.

#### **The current PSPO**

The current PSPO/dog control (2018) came into force in July 2018 and is in place for three years with the expiry of July 2021. We are required to review the existing PSPO/dog control (2018) and as part of this review we are required to consult with the residents and other interested stakeholders.

More information about the current PSPO/dog control (2018) is available on the Council's webpages:

<https://www.chesterfield.gov.uk/health-and-environment/public-spaces-protection-orders-pspos/dog-control-public-spaces-protection-order-pspo.aspx>

The current PSPO/dog control (2018) places responsibilities on dog owners (and dog walkers) to:

- ✓ Pick up after their dog has fouled.
- ✓ Keep their dog on a lead in named locations and at certain times of the year.
- ✓ Keep their dog out of named restricted areas.
- ✓ Put their dog on a lead when asked to do so by an enforcement officer.

An interactive map setting out the restrictions by location is available on the Council's webpage:

<https://www.chesterfield.gov.uk/health-and-environment/public-spaces-protection-orders-pspos/dog-control-public-spaces-protection-order-pspo/map-of-pspo-areas.aspx>

### **Purpose of the review of the current PSPO/dog control**

We are keen to welcome dog walkers and dogs to the Borough and want to encourage responsible dog ownership. There are public concerns over irresponsible dog ownership, including complaints of dog attacks on people and their pets, dog fouling and urinating on grassed areas and graves, and dogs out of control.

Between 2015 and 2018 the Council received 898 complaints about dog fouling. Since the implementation of the PSPO/dog control, the number of complaints about dog fouling has decreased to 306.

Direct exposure to dog faeces can cause toxocariasis, an infection of the roundworm *toxocara canis*, potentially leading to respiratory and vision problems. Treading in dog faeces can also potentially lead to slips, trips and falls, and subsequent injuries. The Council is already promoting messages and asking people to be a responsible dog owner/walker, pick up after your dog(s) and report those that don't pick up after their dog(s). We are also investing in signs and stencils across several hotspot locations and carry out regular enforcement patrols. Nevertheless, a small minority of dog owners/walkers continue to fail to pick up after their dog(s) has/have fouled.

Between 2015 and 2018 the Council received 138 complaints about dog-related incidents (such as dogs off a lead and behaving in an aggressive manner, dogs attacking other dogs or wildlife). Since the implementation of the PSPO/dog control (2018), the number of complaints about dog-related incidents has decreased to 118.

We work in partnership with Derbyshire Police to investigate dog incidents, particularly those that have occurred in public spaces such as parks. Data provided by Derbyshire Police shows that there has been a decrease in reports of dog-related incidents between 2017 (243 incidents) and 2020 (152 incidents).

### **What are the proposed changes?**

We are proposing to continue with the existing control measures which are outlined at the end of this document (see Appendix 1) and available online  
<https://www.chesterfield.gov.uk/health-and-environment/public-spaces-protection-orders-pspos/dog-control-public-spaces-protection-order-pspo.aspx>

### **What these proposals would mean?**

There are several existing restrictions that we would like to continue enforcing which will enable us to strengthen our approach of dealing with dog fouling and problematic dog behaviour.

As the offences would be breaches of a PSPO, we may issue a fixed penalty notice offering the person concerned the opportunity of discharging any liability to conviction for the offence by paying a fixed penalty. This fixed penalty must not be more than £100 and the fine level is currently set at £80. The offences are outlined in more detail here:

#### Failure to pick up after their dog

Our enforcement officers will issue a fixed penalty notice if a person in charge of a dog fails to pick up after the dog has fouled. This would not be applicable to anyone who is registered blind. The Council's enforcement officers would be able to enforce this anywhere the public has access. We will not be able to enforce this where the landowner, occupier, or other person in charge of a public space has given permission for dog walkers not to pick up faeces.

### Keeping a dog on a lead (at named locations)

Our enforcement officers will require a person in charge of a dog to keep the dog on a lead at named locations. Failure to do so would result in a fixed penalty notice being issued.

### Excluding dogs from children's play areas (at named locations)

Our enforcement officers will be able to require a person in charge of a dog which has entered a children's play area to remove that dog from the play area. Failure to do so would result in a fixed penalty notice being issued.

### Excluding dogs from sports pitches (at named locations)

Our enforcement officers will be able to require a person in charge of a dog which has entered a designated sports area to remove that dog from that area. Failure to do so would result in a fixed penalty notice being issued.

### Dogs on lead by direction

Our enforcement officers will be able to require a person in charge of a dog which is behaving in a manner that is causing alarm or distress to another person or animal to put request that that dog is put in its lead. Failure to do so would result in a fixed penalty notice being issued.

### **When will the changes take place?**

Elected members will receive a report on the findings from this consultation exercise and be asked to consider these powers to tackle dog fouling and other forms of irresponsible dog ownership. This meeting is likely to take place in June/July 2021.

If approved, we will publish the new PSPO/dog control (2021) on the website and raise awareness of the PSPO via social media and by talking to dog walkers and visitors in our parks and open spaces.

### **Where can I get more information?**

During the consultation period we will be collating all views and comments we receive. If you have any questions please contact the Environmental Protection team
