

1) From Waseem Ahmed

As a licensed driver of Chesterfield Borough Council I strongly oppose the proposal of increase of fee. Most important reasons are as follow

- sharp increase in fuel prices
- unbelievable increase in energy prices
- increase in cost of maintenance and repair of vehicle
- overall inflation.

Due to above mentioned and many other factors, I really believe that increase in fee will hardly harm us and definitely cause more difficulties to already suppress taxi drivers. I hope you will consider my request not to increase the fee.

It's a joke, business is very poor at the moment and you still want to put prices up, it will back fire when folk cannot afford it and you get no money at all.
